Where leaders are born

"Leaders are born from the heart, not from the crowd.
They are brave, they have a vision, they have hope and they have the
courage to stand up when others sit down. Leaders don't need to wait
until they are older."

So your journey starts right now!
From here on you will discover the leader that is hidden
within your soul."

Welcome !

Where leaders are born

VISION STATEMENT

We founded this organization with a bold determination to make society a better place by guiding students, helping them to discover their way in life thus enabling and motivating them to contribute to society and lead the change they want to see!

MISSION STATEMENT

We strive to create a supportive and friendly learning environment in which faculty, staff and students can learn, think critically, conserve, and pass on the knowledge and wisdom that can improve their lives and improve society at large. We are thus assuming a proactive role in developing the next generation of leaders, making sure they are well-prepared for employment or to become successful entrepreneurs and thus play an active role in society.

OUR PHILOSOPHY

At Stephen Business School we apply our traditional emphasis of "knowledge being power" to the challenges and opportunities of today's world to provide a business education that will prepare you to manage successfully
– and make the difference – in the business environment of the 21st century.

In our business education, we place much importance on "education of the soul": in this perspective, we do not only teach business knowledge, but we also help our students to develop skills and competencies that will help them apply business knowledge in ways that have a positive impact on society, safeguarding the ability for future generations to develop their lives and careers.

If you are looking to advance your career, and to help make the world a better place, then we are looking for you ...

Come and join us at Stephen Business School.
We look forward to meeting you soon!
